

COMPACT COOLER CC165

CC165 is designed for reliable climate comfort in midi buses

The unit is made to provide a cool interior at high outside temperature. Highly effective radial blowers assure best air-flow which is 40% more than the units in the market. With its low weight it is perfect for mini and midi bus application.

Compact Cooler CC165

HIGHLIGHTS

- High cooling capacity
- High air flow
- Extreme low weight
- Reduced refrigerant charge due to multi flow condensers
- Easy maintenance access.

TECHNICAL DATA

	CC165
Max cooling capacity (kW)	18
Air flow volume (free-blowing) m ³ /h	4200
Max. ambient temperature (°C)	55
Nominal Current Consumption (12V) A	84
Refrigerant (CFC Free)	R134a
Dimensions LXWXH (mm)	2000 X 1164 X 217
Compressor	TM 21 (12V)
